### 2. Fund Expenses

The series' expenses are made up of the management fee, operating expenses and trading costs. The series' annual management fee is 2.25% of the series' value. Because this mutual fund is new, information on the operating expenses and trading costs for this series is not yet available. You don't pay these expenses directly. They affect you because they reduce the series' returns.

#### Incentive Fee

No incentive fee is paid directly by the Fund. However, some of the underlying funds pay us annually an incentive fee. The incentive fee payable by an underlying fund, if any, is calculated in accordance with the simplified prospectus of such underlying fund.

#### Trailing commission

We pay trailing commissions out of the management fee paid to us. The trailing commission is paid to your dealer for as long as you own the Fund. The rate depends on the sales charge option you choose:

- Initial Sales Charge – a dealer may receive an annual service fee of up to 1.0% (\$10 for each \$1,000 investment) of the value of Series T shares of the Fund held by the dealer's clients.
- Low Load – a dealer may receive an annual service fee of up to 1.0% (\$10 for each \$1,000 investment) of the value of Series T shares of the Fund held by the dealer's clients for more than one year.

You may have to pay other fees when you sell or switch shares of the Fund.

FEE	WHAT YOU PAY
<b>Switch Fee</b>	A fee of 0-2% of the value of the shares you wish to switch may be charged by your dealer, as negotiated with your dealer. If you switch Series T shares of the Fund that are subject to a deferred sales charge into a series of shares of the Fund that are not subject to a deferred sales charge, you will be charged the amount of the applicable deferred sales charge at the time of such switch.
<b>Short Term Trading Fee</b>	We may impose a short-term trading fee payable by the shareholder to us of up to 3% of the aggregate net asset value of the shares redeemed if such shares are redeemed within 180 days of their date of purchase or switch.
