Managed Distribution Policy

The Board of Directors of Sprott Focus Trust, Inc. (the “Fund”) has authorized a managed distribution policy (“MDP”). Under the MDP, the Fund pays quarterly distributions at an annual rate of 5% of the average of the prior four quarter-end net asset values, with the fourth quarter being the greater of this annualized rate or the distribution required by IRS regulations. With each distribution, the Fund will issue a notice to its stockholders and an accompanying press release that provides detailed information regarding the amount and composition of the distribution (including whether any portion of the distribution represents a return of capital) and other information required by the Fund’s MDP. You should not draw any conclusions about the Fund’s investment performance from the amount of distributions or from the terms of the Fund’s MDP. The Fund’s Board of Directors may amend or terminate the MDP at any time without prior notice to stockholders.

² Royce & Associates, LLC served as investment adviser of the Fund from November 1, 1996 to March 6, 2015. After the close of business on March 6, 2015, Sprott Asset Management LP and Sprott Asset Management USA Inc. became the investment adviser and investment sub-adviser, respectively, of the Fund.

Important Performance and Risk Information

All performance information reflects past performance, is presented on a total return basis, net of the Fund's investment advisory fee, and reflects the reinvestment of distributions. Past performance is no guarantee of future results. Current performance may be higher or lower than performance quoted. Returns as of the most recent month-end may be obtained at www.sprottfocustrust.com. The market price of the Fund's shares will fluctuate, so shares may be worth more or less than their original cost when sold.

Sprott Focus Trust, Inc. (the "Fund") is a closed-end registered investment company whose shares of common stock may trade at a discount to their net asset value. Shares of the Fund's common stock are also subject to the market risks of investing in the underlying portfolio securities held by the Fund.

The Fund is a closed-end investment company whose shares of common stock trade on the Nasdaq Select Market. Closed-end funds, unlike open-end funds, are not continuously offered. After the initial public offering, shares of closed-end funds are sold on the open market through a stock exchange. For additional information, contact your financial advisor or call 1.203.656.2430. Investment policies, management fees and other matters of interest to prospective investors may be found in the closed-end fund prospectus used in its initial public offering, as revised by subsequent stockholder reports.

Russell Investment Group is the source and owner of the trademarks, service marks, and copyrights related to the Russell Indexes. Russell® is a trademark of Russell Investment Group. The Russell 3000 index measures the performance of the largest 3,000 U.S. companies. The performance of an index does not represent exactly any particular investment, as you cannot invest directly in an index.

Spratt Focus Trust

Whitney George

MANAGER'S DISCUSSION

For the quarter ended June 30, 2015, Spratt Focus Trust, Inc. (the "Fund") gained 1.95%, bringing the 6 month advance to 2.59%. This compares to 3 and 6 month returns of 0.14% and 1.94% on the Russell 3000. Given the multi-cap composition of the Fund, which has been in place since early 2009, it was decided that the Russell

3000 is the most appropriate benchmark for the Fund. However, it is the intent of this manager to deliver absolute returns with an eye for positive long term results measured after fees and taxes. In addition to owning domestic companies with a wide range of market caps, at period end, the Fund held approximately 16% of its assets in foreign securities, half of which were Canadian-based resource companies.

ACTIVITY AND POSITIONING

While year to date results appear somewhat muted, individual stock performance volatility picked up dramatically. This is a positive new development for active management and hopefully one that will persist. During the first six months of the year, Cirrus Logic advanced 44.3%, Value Partners 92.4%, Cal-Maine Foods 36.5%, Apple Inc. 14.5% and Clarkson PLC 47.9%. While there were other notable winners, these were the top five contributors to the Fund's six-month performance, adding over 500 basis points. In the cases of Cirrus Logic, Value Partners Group and to a lesser degree Apple Inc., positions were reduced to reflect the less favorable risk/reward profile caused by their stock price appreciation. I added to the Cal-Maine Foods position because the market has yet to appreciate its rapidly improving fundamentals. Cal-Maine is the largest egg producer in the USA and none of its facilities have been affected by the Avian Flu which has caused a reduction of about 1/3 of the national egg laying flock. Anyone who buys eggs will understand the effect this crisis has had on egg pricing. This appears to be a short term issue, expected to last a year to 18 months. However, there are longer term structural problems in the egg supply chain that will benefit Cal-Maine. Currently, as a result of Avian Flu, many investors are looking at this company for the first time.

Clarkson is the world's leading ship broker. Based in the U.K., Clarkson earns brokerage fees for leasing, construction, decommissioning and research on roughly \$3 trillion worth of assets around the world. The operating leverage on global trade in their business model is very exciting. The current position in Clarkson was held unchanged because it was smaller than the other winners, but that could change should it continue to advance.

Naturally there were some less than satisfactory holdings in the first six months of 2015. Our largest disappointments were Western Digital Corporation (-28.5%), SanDisk Corporation (-40.1%),

Franklin Resources (-10.9%), Sanderson Farms (-10.1%) and Unit Corporation (-20.5%). Combined, these holdings cost us 350 basis points. Western Digital and SanDisk were large winners in prior periods that had been pruned back and, in the case of Western Digital, providing a new opportunity to invest. As one of two remaining hard disk drive companies (three if you include Toshiba), Western Digital has a dominant position providing central storage systems to the rapidly expanding cloud ecosystem. Near-term erosion in sales to personal computer applications has created a market reaction which I believe is an opportunity.

The relatively small back up in the share prices of Franklin Resources and Sanderson Farms is viewed as an opportunity to add at the margin.

As of June 30, 2015 the Fund was fully invested (97.6% equities). This is by no means a reflection of a market view but, rather, the ability to find fifty attractively priced businesses. Asset management, loosely defined, remains the largest sector weighting at roughly 17.1%. This would include traditional asset managers as well as some specialized companies that manage assets but are defined differently (think Berkshire Hathaway). Mature technology is the second largest sector theme in the portfolio at 16.5%. This would include Apple Inc., Western Digital and other companies generally in technology industries with a new and purposeful commitment to shareholder returns. In some cases, these companies have committed to returning more than half their ample free cash flows to shareholders through dividends and buybacks.

The portfolio is invested with a little more than 14% in a variety of agricultural companies. It is my strong belief that affordable protein is a global growth story. Given the unpredictability of commodity prices and therefore earnings, agricultural companies are not widely followed by Wall Street and therefore are susceptible to mispricing. Energy is approximately at a 10% weighting and precious metals mining at 8%.

One last theme worth mentioning at roughly 15% of the portfolio is stocks with strong fundamentals that are heavily shorted. The Fund owns six positions where the short interest exceeds 25% of the float; in several cases the short interest exceeds 40%. These are neither sick nor overpriced companies, but rather industry leaders where short-term skepticism has become exaggerated in my judgment, often in tandem with generous dividends and share buybacks.

OUTLOOK

Very little has changed in the global financial outlook during the last few years. Central bank interventions continue around the world. While the U.S. Federal Reserve is expected to raise rates from their emergency levels later this year, or early next year, I believe they will do so only to prove that they can. I do not believe that the Fed or

anyone else believes that higher rates will solve any problems after our economy has spent six years getting accustomed to 0% short-term rates. Corporate strategies, which include borrowing money to fund buybacks and dividends at the expense of capital investment, will need to change. Growth through mergers and acquisitions followed by cost cutting will be harder to finance. Investment strategies chasing current payouts (MLPs and REITs) will surely stumble. Additionally, where will a whole new class of equities referred to as Unicorns go? It is my view that it will not be the Fed who will ultimately control interest rates, but rather the market itself. At some point, the increasing risk of default or more obvious debasement will drive a change. The drama in Greece is perhaps most significant for pointing this out to investors globally. There is a tipping point at which debt becomes too burdensome to service, much less repay.

While there is plenty to worry about in terms of macroeconomics, I remain optimistic about the Fund's portfolio and believe the portfolio is well positioned for these highly uncertain times. Its holdings are well financed (strong balance sheets), have histories of high returns (ROI) and are conservatively valued. The recent pick up in market volatility is a welcome development for someone like myself who would rather buy one stock and leave the whole sector to others who prefer ETFs.

¹ **Geometric Average.** This weighted calculation uses each portfolio holding's market cap in a way designed to not skew the effect of very large or small holdings; instead, it aims to better identify the portfolio's center, which Sprott believes offers a more accurate measure of average market cap than a simple mean or median.² **Harmonic Average.** This weighted calculation evaluates a portfolio as if it were a single stock and measures it overall. It compares the total market value of the portfolio to the portfolio's share in the earnings or book value, as the case may be, of its underlying stocks.³ The Fund's P/E ratio calculation excludes companies with zero or negative earnings.**Important Performance and Risk Information**

All performance information reflects past performance, is presented on a total return basis, and reflects the reinvestment of distributions. Past performance is no guarantee of future results. Current performance may be higher or lower than performance quoted. Returns as of the most recent month-end may be obtained at www.SprottFocusTrust.com. The market price of the Fund's shares will fluctuate, so shares may be worth more or less than their original cost when sold. The Fund normally invests primarily in small/mid cap companies, which may involve considerably more risk than investing in a larger-cap companies. The Fund also generally invests a significant portion of its assets in a limited number of stocks, which may involve considerably more risk than a broadly diversified portfolio because a decline in the value of any one of these stocks would cause the Fund's overall value to decline to a greater degree. Regarding the "Top Contributors" and "Top Detractors" tables shown on page 3, the sum of all contributors to, and all detractors from, performance for all securities in the portfolio would approximate the Fund's performance for 2015.

¹ The purchase price used for annual distribution totals is a weighted average of the distribution reinvestment prices for the year.

² Values are stated as of December 31 of the year indicated, after reinvestment of distributions.

³ Includes a return of capital.

Distribution Reinvestment and Cash Purchase Options

Why should I reinvest my distributions?

By reinvesting distributions, a stockholder can maintain an undiluted investment in the Fund. The regular reinvestment of distributions has a significant impact on stockholder returns. In contrast, the stockholder who takes distributions in cash is penalized when shares are issued below net asset value to other stockholders.

How does the reinvestment of distributions from the Fund work?

The Fund automatically issues shares in payment of distributions unless you indicate otherwise. The shares are generally issued at the lower of the market price or net asset value on the valuation date.

How does this apply to registered stockholders?

If your shares are registered directly with the Fund, your distributions are automatically reinvested unless you have otherwise instructed the Fund's transfer agent, Computershare, in writing, in which case you will receive your distribution in cash. A registered stockholder also may have the option to receive the distribution in the form of a stock certificate.

What if my shares are held by a brokerage firm or a bank?

If your shares are held by a brokerage firm, bank, or other intermediary as the stockholder of record, you should contact your brokerage firm or bank to be certain that it is automatically reinvesting distributions on your behalf. If they are unable to reinvest distributions on behalf, you should have your shares registered in your name in order to participate.

What other features are available for registered stockholders?

The Distribution Reinvestment and Cash Purchase Plans also allow registered stockholders to make optional cash purchases of shares of the Fund's common stock directly through Computershare on a monthly basis, and to deposit certificates representing your FUND shares with Computershare for safekeeping. Plan participants are subject to a \$0.75 service fee for each voluntary cash purchase under the Plans. The Fund's investment adviser is absorbing all commissions on optional cash purchases under the Plans through June 30, 2015.

How do the Plans work for registered stockholders?

Computershare maintains the accounts for registered stockholders in the Plans and sends written confirmation of all transactions in the account. Shares in the account of each participant will be held by Computershare in non-certificated form in the name of the participant, and each participant will be able to vote those shares at a stockholder meeting or by proxy. A participant may also send stock certificates for FUND held by them to Computershare to be held in non-certificated form. There is no service fee charged to participants for reinvesting distributions. If a participant elects to sell shares from a Plan account, Computershare will deduct a \$2.50 service fee from the sale transaction. The Fund's investment adviser is absorbing all commissions on optional sales under the Plan through June 30, 2015. If a nominee is the registered owner of your shares, the nominee will maintain the accounts on your behalf.

How can I get more information on the Plans?

You can call an Investor Services Representative at (203) 656-2430 or you can request a copy of the Plan for your Fund from Computershare. All correspondence (including notifications) should be directed to: Sprott Focus Trust Distribution Reinvestment and Cash Purchase Plan, c/o Computershare, PO Box 30170 College Station, TX 77842-3170, telephone (800) 426-5523 (from 9:00 A.M. to 5:00 P.M.).

* These years were audited by predecessor audit firm whose opinion was unqualified.

¹ Calculated using average shares outstanding during the period.

² To be allocated to net investment income, net realized gains and/or return of capital at year end.

³ The Market Value Total Return is calculated assuming a purchase of Common Stock on the opening of the first business day and a sale on the closing of the last business day of each period. Dividends and distributions are assumed for the purposes of this calculation to be reinvested at prices obtained under the Fund's Distribution Reinvestment and Cash Purchase Plan. Net Asset Value Total Return is calculated on the same basis, except that the Fund's net asset value is used on the purchase and sale dates instead of market value.

⁴ Not annualized.

⁵ Annualized.

⁶ Expense ratios based on total average net assets including liquidation value of Preferred Stock were 1.17%, 1.16% and 1.17% for the years ended December 31, 2012, 2011 and 2010, respectively.

Sprott Focus Trust (formerly, Royce Focus Trust)

Notes to Financial Statements

Summary of Significant Accounting Policies:

Sprott Focus Trust, Inc. (the “Fund”) is a diversified closed-end investment company incorporated under the laws of the State of Maryland. The Fund commenced operations on March 2, 1988, and Sprott Asset Management LP and Sprott Asset Management USA Inc. (collectively, “Sprott”) assumed investment management responsibility for the Fund after the close of business on March 6, 2015. Royce & Associates, LLC was the Fund’s previous investment manager.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification Topic 946 “Financial Services-Investment Companies”.

At June 30, 2015, officers, employees of Sprott, Fund directors, and other affiliates owned 20% of the Fund.

VALUATION OF INVESTMENTS:

Securities are valued as of the close of trading on the New York Stock Exchange (NYSE) (generally 4:00 p.m. Eastern time) on the valuation date. Securities that trade on an exchange, and securities traded on Nasdaq’s Electronic Bulletin Board, are valued at their last reported sales price or Nasdaq official closing price taken from the primary market in which each security trades or, if no sale is reported for such day, at their highest bid price. Other over-the-counter securities for which market quotations are readily available are valued at their highest bid price, except in the case of some bonds and other fixed income securities which may be valued by reference to other securities with comparable ratings, interest rates and maturities, using established independent pricing services. The Fund values its non-U.S. dollar denominated securities in U.S. dollars daily at the prevailing foreign currency exchange rates as quoted by a major bank. Securities for which market quotations are not readily available are valued at their fair value in accordance with the provisions of the 1940 Act, under procedures approved by the Fund’s Board of Directors, and are reported as Level 3 securities. As a general principle, the fair value of a security is the amount which the Fund might reasonably expect to receive for the security upon its current sale. However, in light of the judgment involved in fair valuations, there can be no assurance that a fair value assigned to a particular security will be the amount which the Fund might be able to receive upon its current sale. In addition, if, between the time trading ends on a particular security and the close of the customary trading session on the NYSE, events occur that are significant and may make the closing price unreliable, the Fund may fair value the security. The Fund uses an independent pricing service to provide fair value estimates for relevant non-U.S. equity securities on days when the U.S. market volatility exceeds a certain threshold. This pricing service uses proprietary correlations it has developed between the movement of prices of non-U.S. equity securities and indices of U.S.-traded securities, futures contracts and other indications to estimate the fair value of relevant non-U.S. securities. When fair value pricing is employed, the prices of securities used by the Fund may differ from quoted or published prices for the same security. Investments in money market funds are valued at net asset value per share.

Various inputs are used in determining the value of the Fund’s investments, as noted above. These inputs are summarized in the three broad levels below:

Level 1 – quoted prices in active markets for identical securities.

Level 2 – other significant observable inputs (including quoted prices for similar securities, foreign securities that may be fair valued and repurchase agreements).

Level 3 – significant unobservable inputs (including last trade price before trading was suspended, or at a discount thereto for lack of marketability or otherwise, market price information regarding other securities, information received from the company and/or published documents, including SEC filings and financial statements, or other publicly available information).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the Fund’s investments as of June 30, 2015 based on the inputs used to value them. For a detailed breakout of common stocks by sector classification, please refer to the Schedule of Investments.

	LEVEL 1	LEVEL 2	LEVEL 3	TOTAL
Common Stocks	\$185,532,532	\$ —	—	\$185,532,532
Cash Equivalents	—	6,058,000	—	6,058,000

For the six months ended June 30, 2015, certain securities have transferred in and out of Level 1 and Level 2 measurements. The Fund recognizes transfers between levels as of the end of the reporting period. At June 30, 2015, securities valued at \$25,312,975 were transferred from Level 2 to Level 1 within the fair value hierarchy.

Sprott Focus Trust (formerly, Royce Focus Trust)

Notes to Financial Statements (continued)

REPURCHASE AGREEMENTS:

The Fund may enter into repurchase agreements with institutions that the Fund's investment adviser has determined are creditworthy. The Fund restricts repurchase agreements to maturities of no more than seven days. Securities pledged as collateral for repurchase agreements, which are held until maturity of the repurchase agreements, are marked-to-market daily and maintained at a value at least equal to the principal amount of the repurchase agreement (including accrued interest). Repurchase agreements could involve certain risks in the event of default or insolvency of the counter-party, including possible delays or restrictions upon the ability of the Fund to dispose of its underlying securities.

FOREIGN CURRENCY:

Net realized foreign exchange gains or losses arise from sales and maturities of short-term securities, sales of foreign currencies, expiration of currency forward contracts, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the value of assets and liabilities, including investments in securities at the end of the reporting period, as a result of changes in foreign currency exchange rates.

TAXES:

As a qualified regulated investment company under Subchapter M of the Internal Revenue Code, the Fund is not subject to income taxes to the extent that it distributes substantially all of its taxable income for its fiscal year. The Schedule of Investments includes information regarding income taxes under the caption "Tax Information".

DISTRIBUTIONS:

The Fund pays quarterly distributions on the Fund's Common Stock at the annual rate of 5% of the rolling average of the prior four calendar quarter-end NAVs of the Fund's Common Stock, with the fourth quarter distribution being the greater of 1.25% of the rolling average or the distribution required by IRS regulations. Prior to November 15, 2012, distributions to Preferred Stockholders were accrued daily and paid quarterly. Distributions to Common Stockholders are recorded on ex-dividend date. Distributable capital gains and/or net investment income were first allocated to Preferred Stockholder distributions, with any excess allocable to Common Stockholders. If capital gains and/or net investment income were allocated to both Preferred and Common Stockholders, the tax character of such allocations was proportional. To the extent that distributions are not paid from long-term capital gains, net investment income or net short-term capital gains, they will represent a return of capital. Distributions are determined in accordance with income tax regulations that may differ from accounting principles generally accepted in the United States of America. Permanent book and tax differences relating to stockholder distributions will result in reclassifications within the capital accounts. Undistributed net investment income may include temporary book and tax basis differences, which will reverse in a subsequent period. Any taxable income or gain remaining undistributed at fiscal year end is distributed in the following year.

INVESTMENT TRANSACTIONS AND RELATED INVESTMENT INCOME:

Investment transactions are accounted for on the trade date. Dividend income is recorded on the ex-dividend date. Non-cash dividend income is recorded at the fair market value of the securities received. Interest income is recorded on an accrual basis. Premium and discounts on debt securities are amortized using the effective yield-to-maturity method. Realized gains and losses from investment transactions are determined on the basis of identified cost for book and tax purposes.

EXPENSES:

The Fund incurs direct and indirect expenses. Expenses directly attributable to the Fund are charged to the Fund's operations, while expenses applicable to more than one fund managed by Sprott are allocated equitably.

COMPENSATING BALANCE CREDITS:

The Fund has an arrangement with its custodian bank, whereby a portion of the custodian's fee is paid indirectly by credits earned on the Fund's cash on deposit with the bank. This deposit arrangement is an alternative to purchasing overnight investments. Conversely, the Fund pays interest to the custodian on any cash overdrafts, to the extent they are not offset by credits earned on positive cash balances.

CAPITAL STOCK:

The Fund issued 363,984 and 675,314 shares of Common Stock as reinvestments of distributions for the six months ended June 30, 2015 and the year ended December 31, 2014, respectively.

Sprott Focus Trust (formerly, Royce Focus Trust)

Notes to Financial Statements (continued)

INVESTMENT ADVISORY AGREEMENT:

The Investment Advisory Agreement between Sprott and the Fund provides for fees to be paid at an annual rate of 1.0% of the Fund's average daily net assets. The Fund accrued and paid investment advisory fees totaling \$346,715 to Royce & Associates, LLC for the period from January 1 - March 6, 2015 and \$611,438 to Sprott for the period from March 6 - June 30, 2015.

PURCHASES AND SALES OF INVESTMENT SECURITIES:

For the six months ended June 30, 2015, the costs of purchases and proceeds from sales of investment securities, other than short-term securities, amounted to \$30,711,447 and \$33,289,779, respectively.

(since October, 2012); In-House Counsel and Chief Compliance Officer of Sprott Global Resource Investments Ltd. (since October, 2012); Chief Compliance Officer, Altegris Advisors, L.L.C. (from July, 2011 to October, 2012); Principal, General Counsel and Chief Compliance Officer of Geneva Advisors (March, 2005 to July, 2011).

¹ Mr. George is an “interested person”, as defined in Section 2(a)(19) of the 1940 Act, of the Fund due to his position as Senior Portfolio Manager at Sprott Asset Management USA Inc., the Fund’s sub-adviser.

Board Approval of Investment Advisory Agreements

Board and Stockholder Approvals of New Investment Advisory and Subadvisory Agreements

The Board of Directors of the Fund (then named “Royce Focus Trust, Inc.”) as constituted on December 16, 2015 (the “Prior Board”) at a regularly scheduled in-person Board meeting on December 16, 2014, approved, subject to stockholder approval, a new investment advisory agreement by and between the Fund and Sprott Asset Management LP (the “New Investment Advisory Agreement”) and a new investment subadvisory agreement by and among the Fund, Sprott Asset Management LP and Sprott Asset Management USA Inc. (together with the New Investment Advisory Agreement, the “New Agreements”). The Prior Board also voted to recommend that the stockholders of the Fund approve each New Agreement at a special meeting of stockholders of the Fund to take place on February 26, 2015. The stockholders at the Special Meeting of Stockholders on February 26, 2015 approved the New Agreements and elected three new Directors and one holdover Director (the “New Board”), replacing certain former Directors who had resigned. At a special in-person Board meeting on March 9, 2015, the New Board ratified and approved the New Agreements.

Notes to Performance and Other Important Information

The thoughts expressed in this *Review and Report* concerning recent market movements and future prospects for small company stocks are solely the opinion of Sprott at June 30, 2015, and, of course, historical market trends are not necessarily indicative of future market movements. Statements regarding the future prospects for particular securities held in the Fund's portfolio and Sprott's investment intentions with respect to those securities reflect Sprott's opinions as of June 30, 2015 and are subject to change at any time without notice. There can be no assurance that securities mentioned in this *Review and Report* will be included in the Fund in the future. Investments in securities of micro-cap, small-cap and/or mid-cap companies may involve considerably more risk than investments in securities of larger-cap companies. All publicly released material information is always disclosed by the Fund on the website at www.sprottfocustrust.com.

Sector weightings are determined using the Global Industry Classification Standard ("GICS"). GICS was developed by, and is the exclusive property of, Standard & Poor's Financial Services LLC ("S&P") and MSCI Inc. ("MSCI"). GICS is the trademark of S&P and MSCI. "Global Industry Classification Standard (GICS)" and "GICS Direct" are service marks of S&P and MSCI.

All indexes referred to are unmanaged and capitalization weighted. Each index's returns include net reinvested dividends and/or interest income. Russell Investment Group is the source and owner of the trademarks, service marks, and copyrights related to the Russell Indexes. Russell® is a trademark of Russell Investment Group. The Russell 3000 Index measures the performance of the largest 3,000 U.S. companies representing approximately 98% of the investable U.S. equity market. The Russell 3000 Index is constructed to provide a comprehensive, unbiased and stable barometer of the broad market and is completely reconstituted annually to ensure new and growing equities are reflected. The performance of an index does not represent exactly any particular investment, as you cannot invest directly in an index. Returns for the market indexes used in this report were based on information supplied to Sprott by Russell Investments.

The Price-Earnings, or P/E, Ratio is calculated by dividing a company's share price by its trailing 12-month earnings-per share (EPS). The Price-to-Book, or P/B, Ratio is calculated by dividing a company's share price by its book value per share. The Sharpe Ratio is calculated for a specified period by dividing a fund's annualized excess returns by its annualized standard deviation. The higher the Sharpe Ratio, the better the fund's historical risk-adjusted performance. Standard deviation is a statistical measure within which a fund's total returns have varied over time. The greater the standard deviation, the greater a fund's volatility.

Forward-Looking Statements

This material contains forward-looking statements within the meaning of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), that involve risks and uncertainties, including, among others, statements as to:

- the Fund's future operating results
- the prospects of the Fund's portfolio companies
- the impact of investments that the Fund has made or may make
- the dependence of the Fund's future success on the general economy and its impact on the companies and industries in which the Fund invests, and
- the ability of the Fund's portfolio companies to achieve their objectives.

This *Review and Report* uses words such as "anticipates," "believes," "expects," "future," "intends," and similar expressions to identify forward-looking statements. Actual results may differ materially from those projected in the forward-looking statements for any reason.

The Fund has based the forward-looking statements included in this *Review and Report* on information available to us on the date of the report, and we assume no obligation to update any such forward-looking statements. Although the Fund undertakes no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise, you are advised to consult any additional disclosures that we may make through future stockholder communications or reports.

Authorized Share Transactions

The Fund may repurchase up to 5% of the issued and outstanding shares of its common stock during the year ending December 31, 2015. Any such repurchase would take place at then prevailing prices in the open market or in other transactions. Common stock repurchases would be effected at a price per share that is less than the share's then current net asset value.

The Fund is also authorized to offer its common stockholders an opportunity to subscribe for additional shares of its common stock through rights offerings at a price per share that may be less than the share's then current net asset value. The timing and terms of any such offerings are within the Board's discretion.

Proxy Voting

A copy of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities and information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available, without charge, on the Fund's website at www.sprottfocustrust.com, by calling (203) 656-2430 (toll-free) and on the website of the Securities and Exchange Commission ("SEC"), at www.sec.gov.

Form N-Q Filing

The Fund files its complete schedule of investments with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund's Form N-Q is available on the SEC's website at www.sec.gov. The Fund's holdings are also on the Fund's website approximately 15 to 20 days after each calendar quarter end and remain available until the next quarter's holdings are posted. The Fund's Forms N-Q may also be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. To find out more about this public service, call the SEC at (800) 732-0330.

Results of Stockholders Meeting

At a special meeting of stockholders held on February 26, 2015 (the “Meeting”), the Fund’s stockholders voted on the approval of new investment advisory and investment subadvisory agreements and on the election of directors. The following table sets forth the votes cast with respect to each matter voted on at the Meeting.

MATTER	VOTES FOR	VOTES AGAINST	VOTES WITHHELD
